	Total kilometre	791	Tour only

Together with our tour organisers, Ant Tours Thailand we have put together a route of nearly 800 km. 800 km of excellent riding starting and ending in Kanchanaburi with a stopover in Hua Hin at the Gulf of Thailand. As always, we have tried our very best to balance great riding through beautiful jungle scenery along quiet roads with the right number of challenges and some nice hills. But do not worry, CWC rides have always been rides with the focus to allow riders of different fitness levels, ages and riding experience to feel part of and included. The objective of the cycling charity "Cyclists with Compassion" is not only to raise funds for deserving charities, but also to bring together like-minded people from all corners of the world, age groups, creeds, races, nationalities, cultures etc. for a time of friendship and camaraderie. Riding in a Cyclists with Compassion tour is an extraordinary experience; indeed, the long days in the saddle can be sometimes challenging, but at the end all the suffering is rewarded with an indescribable feeling of achievement and friendships bonded for a lifetime. As every year, participation in CWC2024 is by invitation only. If you are interested to join, please just register your interest at <https://www.cyclistswithcompassion.com/contact>.
